FICTIONAL DEMO DATA - not a real brand or brief

Bramble Bots: Media Brief

Campaign: Q4 Christmas 2026 | Prepared for: Little Lantern Media | Issued: 21/10/2026

Client	Bramble Bots Ltd (toy brand)
Campaign	Bramble Bots Q4 Christmas 2026
Total media budget	£150,000 (net of agency commission, excluding VAT)
Campaign window	9 November 2026 to 20 December 2026
Plan approval needed by	6 November 2026
Client contact	Priya Shah, Brand Manager

1. Background

Bramble Bots are build-your-own robot kits with a free companion app. The range launched in spring and is now stocked by the major toy retailers. Christmas is our biggest selling period and we want Bramble Bots on as many wish lists as possible.

2. Objective

Objective: Make Bramble Bots a must-have on Christmas wish lists by building awareness among kids and their parents in the weeks before Christmas.

3. Target audience

Target audience: Children aged 4-9 (core 6-8), and the parents who buy for them. Secondary: grandparents buying gifts.

4. Budget

The total media budget is £150,000. This is a working media budget and excludes production, which is budgeted separately. Please show how the budget splits across channels.

5. Timing

The campaign runs from 9 November 2026 to 20 December 2026. We'd like a strong presence in the final two weeks before Christmas, when most toys are bought.

6. Mandatories and considerations

• We'd like TV to be part of the plan.

• Any activity seen by children under 13 online must use contextual or made-for-kids placements only. No personalised targeting of children.

• We don't want claims about what children think or feel in our communications.

• Please flag any rates that are not yet confirmed.

7. What we need back

A media plan in your usual format, with the reasoning for each channel, by 6 November 2026.

FICTIONAL DEMO DATA. Bramble Bots, Little Lantern Media and Priya Shah are invented for a product demonstration.
